**NOTICE OF PUBLIC HEARING**

---

---

The Canadian Nuclear Safety Commission (CNSC) announces a two-day public hearing on a licensing application for the following nuclear facility:

- Cigar Lake Mining Corporation (CLMC), Saskatoon, Saskatchewan:

Application for a Uranium Mine Site Preparation Licence

Presentations by the applicant and CNSC staff on the above application will be heard by the Commission on May 29, 2001. Written submissions from the applicant and Commission staff are due by April 27, 2001 and will be available on request after that date.

Written submissions and oral presentations from intervenors with respect to the above application are invited and will be considered on June 28, 2001. Commission staff and licensee representatives will also be present. Requests to intervene before the Commission with respect to the above licensing application are due by May 29, 2001. All such requests must clearly indicate whether the intervention will be by written submission or oral presentation and all requests must be accompanied by a full written text of the submission or oral presentation. Intervenors who prefer to appear before the Commission on May 29, 2001, must send their request to the Commission at the address below by April 27, 2001.

The hearing sessions on May 29, 2001, and June 28, 2001, are scheduled to be held at the CNSC's offices in Ottawa, at 280 Slater Street, 14th floor. Public hearings begin at 8:30 a.m. and follow the order listed in the agenda published prior to the hearing date. All submissions must be filed with the Secretary of the Commission at the following address:

c/o Ms. Carmen Ellyson  
Commission Operations Officer  
Canadian Nuclear Safety Commission  
280 Slater St., P.O. Box 1046  
Ottawa, Ontario K1P 5S9

Tel.: (613) 996-2026 or 1-800-668-5284  
Fax: (613) 995-5086  
E-mail: [interventions@cnsccsn.gc.ca](mailto:interventions@cnsccsn.gc.ca)

CNSC hearings on licensing matters are open to the public and public comment is invited. Details on the public hearing process and licensing decisions are available on the CNSC web site.

The CNSC regulates the use of nuclear energy and materials to protect health, safety, security and the environment and to respect Canada's international commitments on the peaceful use of nuclear energy.
