

Notice of Public Hearings

The Canadian Nuclear Safety Commission (CNSC) announces a new date for a one-day public hearing on an application by COGEMA Resources Inc., Saskatoon, Saskatchewan, for revocation of its Mining Facility Removal Licence for the Kiggavik-Sissons Project, located in the Baker Lake area of the Kivalliq region of Nunavut. The Hearing will no longer take place on February 28, 2002 as originally announced. The Hearing will now take place on:

One-Day Hearing: April 18, 2002

Place: CNSC Public Hearing Room, 14th floor, 280 Slater Street, Ottawa, Ontario

The Kiggavik-Sissons Project is owned and operated by COGEMA Resources Inc. (CRI). CRI has applied to the CNSC for the revocation of the Kiggavik-Sissons Project Mining Facility Removal Licence on the basis that the activities being carried out at this site, and currently planned for the future fall into 'exploration activities' and consequently may be exempt from CNSC licensing requirements under the *Uranium Mines and Mills Regulations*.

Public hearings begin at 8:30 am and follow the order listed in the agenda published prior to the hearing dates.

The public is invited to participate either by oral presentation or written submission. Requests to participate and text of oral presentations or written submissions must be filed with the Secretary of the Commission by March 19, 2002.
