**Re: Comments on Proposed Regulatory Document 2.2.1 Managing Worker Fatigue and Hours of Work**

Dear Mr. Dallaire:

We have reviewed REGDOC-2.2.1, Managing Worker Fatigue and Hours of Work. While the scope of the document is intended for nuclear power plants and the Nuclear Research Universal reactor at Chalk River, Nordion is submitting our comments for consideration should the Canadian Nuclear Safety Commission decide to extend the requirements to other Classes of facilities.

As a Federally regulated employer, Nordion Canada agrees with and supports all comments already submitted from T. Arthur of AECL Chalk River Laboratories.

Yours sincerely,

Don E. Brown  
Safety Manager
