My name is Bertie D'souza, I live in the Town of Ajax and I am a supporter of Nuclear power in Ontario.

PNGS has a very safe work place and has a strong operating and safety record. My neighbours, friends and I support the relicensing of PNGS and would like to see the continued safe, clean and competitively priced power provided to all of us for many more years to come.

PNGS provides jobs to young skilled and professional graduates, as well as provides livelihood to many residents and businesses in the Durham Region. Unlike solar and gas-powered plants.

If my friends, family and I were given the choice to pick the source of power generated from delivered and billed to our residence.

For example

Solar @ 80 cents a KW

Gas @ 50 cents a KW

Nuclear @ 7 cents a KW

We would all pick Nuclear as the cheapest, cleanest and an all-weather source. I am certain if given the choice majority of Ontarians would pick Nuclear.

In conclusion I am a strong supporter of relicensing PNGS.

Bertie D'souza
