Re: OPG Pickering Nuclear Station Operating License Renewal

To whom it may concern,

On behalf of Station Gallery, I would like to express support for OPG Pickering Nuclear Station's operating license renewal application for another term to 2028.

Our support is based on the Periodic Safety Review in accordance with Canadian Nuclear Safety Committee regulations and International standards concluding that Pickering is safe and with proposed enhancements will be made safer; as well as based on OPG's commitment to environmental sustainability, enhancing biodiversity, building mutually beneficial working relationships with Indigenous communities, regular transparent communications, and input from a Community Advisory Council.

Our experience with OPG has also been positive over the years. We can speak first-hand about OPG's commitment to the well-being of our community through the support of Station Gallery's Family Art Days and Summer Camp. OPG makes it possible for us to offer art activities for local families and children of all ages to share new experiences and create positive memories together. This allows art and culture-loving children, youth and families an opportunity to connect in the community without financial barriers. In addition to offering a great social opportunity, it inspires participants' creativity and critical thinking

Sincerely,

Kerri King
CEO, Station Gallery
