RE: Letter of Support- OPG Pickering Nuclear Licence Renewal Application

Community Care Durham is a multi-service registered charitable organization. We provide community support services to more than 12,000 adults and their caregivers throughout Durham Region who have needs related to aging, physical and/or mental health. Most of our services are delivered by volunteers - volunteers are the heart and soul of our daily operations and our success depends on the commitment and contribution of our volunteers to help maintain our clients' well-being, independence and quality of life. Each year we hold an annual Volunteer Appreciation event in which Ontario Power Generation provides financial sponsorship. Their sponsorship allows Community Care Durham to recognize the hard work and dedication the volunteers have made throughout the year.

Pickering is a great city and Ontario Power Generation, specifically Pickering Nuclear, demonstrates a high level of commitment to the community. As an agency providing services to seniors and other vulnerable populations, we are able to see first-hand the benefits and impact of Ontario Power Generation's community outreach has, not only for our clients and volunteers, but for the entire community.

OPG strives to make a difference and help improve the well-being of the communities in which it operates. As a community stakeholder, Community Care Durham Ajax-Pickering supports OPG Pickering Nuclear Generating Station's application for licence renewal.

Sincerely,

Katrina Van Rhee
