## Canadian Nuclear Laboratories Request for the Commission to Prescribe the Amount of Basic Insurance Pursuant to the *Nuclear Liability Act*

Following a hearing based on written materials on April 27, 2015, the Canadian Nuclear Safety Commission prescribed the basic insurance for the four Canadian Nuclear Laboratories installations (the Chalk River Laboratories, the Whiteshell Laboratories, the Douglas Point Waste Management Facility, and the Gentilly-1 Waste Management Facility).

The following correction is made to the English version of the *Record of Proceedings* document issued on April 27, 2015 by the Canadian Nuclear Safety Commission, pertaining to the request for the Commission to prescribe the amount of basic insurance pursuant to the *Nuclear Liability Act*<sup>1</sup>.

On page 3 of the document, paragraph 14, the sentence

“As per paragraph 15(1)(a) of the NLA, the Commission therefore prescribes the amount of basic insurance as described in CMD 15-H115.”

is changed to

“As per paragraph 15(1)(a) of the NLA, the Commission therefore prescribes the amount of basic insurance as described in CMD **15-H109.**”
