Dear Mr. Sweetnam

Receipt of Environmental Impact Statement for a Deep Geological Repository for Low and Intermediate Level Waste

This letter is to acknowledge receipt of your letter of April 14, 2011 together with the Environmental Impact Statement (EIS) and Technical Support Documents (TSDs) for the proposed Deep Geological Repository Project for low and intermediate level waste.

The documents are being posted on the Canadian Environmental Assessment Agency (CEAA) website for this project and should be available to the public as of Wednesday, April 20, 2011. In accordance with the Joint Review Panel Agreement, once the members of the Joint Review Panel have been appointed and the participant funding has been awarded by CEAA, the Panel will then have a period of up to 14 days to announce the commencement of the public review and comment period.

Notwithstanding these two outstanding requirements, the EIS documents will be available immediately for review by the federal review team and all other interested parties. For any matters relating to the Joint Review Panel, please contact the Panel Co-Manager, Kelly McGee at 613-947-3710.

Yours sincerely,

A handwritten signature in black ink, appearing to read "M. Leblanc", with a stylized flourish at the end.

Marc Leblanc
Commission Secretary
613 995-6506

cc. Debra Myles, Panel Co-Manager, Canadian Environmental Assessment Agency
