**Subject:** PLEASE DENY 10 year licence request by BWXT to process uranium into fuel pellets in the city of Peterborough

We urge you to **NOT** to grant a licence to BWXT to process uranium for pelleting in our city of Peterborough. This is not something that should be happening in the midst of an urban community. If it must be done, it is only common sense to carry out the process on a site away from communities in an area already zoned for industrial purposes

It would be wrong to risk damaging the health and well-being of Canadians when an alternative exists.

Please give this your most careful consideration,

Anne Elliott
