RE: Intervention by Gordon and Caroline Langill for the BWXT Licence Renewal
(Hearing Ref. 2020 - H - 01)

Dear Esteemed Panel Members:

We have one simple question for each of you to consider. Would you approve this activity in your own residential neighborhood, within a few meters of your own home, or across the street from the school where your children or grandchildren play everyday in the school yard?

Surely Industrial Parks were established for the safety of citizens in neighborhoods like yours and ours.

All of the toxic industrial operations on this site, here in our residential neighborhood, across the street from the school where our children play, should have been completely shut down many years ago. Much harm has been done to our citizens by allowing these operations to continue. Please do not contribute to this continuation.

Only a travesty of bureaucracy and an abuse of your power will allow this dangerous activity to continue. We are begging you to act with your conscience. Please do not approve this BWXT Licence Renewal.

Sincerely, with respect and common sense,

Gordon Langill and Caroline Langill
Peterborough, Ontario, Canada,
