**Subject:** Intervention Letter for Cameco's Blind River Refinery Licence Renewal

Hello,

My name is Mike Stortini and I am the Chief Operating Engineer and FSO here at the Blind River Refinery. I am in my 16th year here, and have found it a very rewarding experience.

Cameco is a strong promoter of safety, going on 16 years LTA free, as well as a front runner with respect to Environmental protection, and delivery of a quality product.

This site plays a huge role in support of the community and to so many service groups in and around it.

I strongly support our site application for relicence, as we are a respectful and respected workplace in the community. We are the envy of all other employers in the area due to our culture and reputation.

Respectfully submitted,

Mike Stortini
