Re: LICENSE RENEWAL FOR COMECON'S BLIND RIVER REFINERY

Dear Ms. Levert

The Corporation of the Town of Blind River has been contacted by Terry Davis, Manager of Cameco Corporation to be part of the intervention process for the renewal of Cameco's Blind River operations, license renewal.

We are very fortunate to have Cameco in our community. Over the years Chris Astles and now Terry Davis have made annual presentations to Town Council as well as making a presentation at our public information sessions and to community groups such as the Blind River Rotary. We receive up to date reports on the plant's emissions testing as well as hearing of the plant's operations.

Cameco Blind River Operations has been adherent to all safety guidelines as reflected in their incredible safety record. I have personally taken tours of the Cameco Refinery and was equally impressed with the attention given to safe working conditions.

The community of Blind River has benefitted from both the company and employees generosity. Through the Cameco Community Care's Day, employees have reached out to assist not for profit groups to improve their operations.

Council supports Cameco's Blind River Refinery license renewal process and we look forward to watching their continued success for many years to come.

Sincerely,

Sally Hagman
Mayor
