To whom it may concern,

My name is Jeff Ogden, and I am the Fire Chief of Port Hope Emergency Services. Our Fire Department has Cameco's Fuel Manufacturing plant in Port Hope, Ontario in our coverage area.

Our department benefits from the financial and training that is provided by Cameco. Working together with Cameco we are ensuring safe practices are being followed and in the event of an emergency we are trained and prepared to work together with Cameco's Emergency Response team on and off Cameco's property.

Port Hope Fire and Emergency Services greatly relies on the support that Cameco gives the department.

Sincerely,

Jeff Ogden

Fire Chief

Port Hope Fire and Emergency Services
