Subject: Intervention PLNGS Hearing Ref. 2022-H-02

To whom it may concern,

My name is Denise Maillet. I am a parent and a grand-parent concerned about radioactive emissions in the event of an accident. I've been working to protect the coastal environment in SE NB since 1995. After graduating from a course in environmental technologies I continued to stay informed on issues in our beautiful province and to make my voice heard.

We invested in solar panels for our home several years ago and believe in alternative sources of power such as wind power, solar, wave... But we do not believe that this province should continue to invest in nuclear energies.

We do not support the license renewal proposed by the NB Power Point Lepreau Nuclear Generating Station and we are greatly disappointed that NB power is not doing more to increase solar, wind and other alternative technologies for power production in our area.

Please acknowledge receipt of this email.

Thank you,

Denise Maillet
