Subject: Subject line: Intervention PLNGS Hearing Ref. 2022-H-02

Please consider this email my written intervention to the Canadian Nuclear Safety Commission, regarding the licence renewal of the NB Power Point Lepreau Nuclear Generating Station.

I am a resident of New Brunswick, a citizen concerned for the health & well being of others, along with the health & well being of the planet.

25 years is far too long to be licensed. What could possibly go wrong?

Have you heard of Chernobyl? Perhaps Fukushima?

Without the public's knowledge & interventions, disaster could be prevalent.

We need to know we're safe!

5 year incremental licencing is by far, less scary than 25.

Please hear my concerns & acknowledge the receipt of my email.

Thank you for your understanding.

Tanya MacBean.
Havelock, NB.
