Re: License Renewal at Point Lepreau Nuclear Generating Station

We are writing this letter in support of the NB Power Corporation's application to renew their license to operate the Point Lepreau Nuclear Generating Station.

The Rural Community of Campobello applauds NB Power for striving to maintain the power demands of the province, and we recognize that nuclear energy makes a major contribution to our power supply. We also acknowledge that since the recent refurbishment at the Point Lepreau facility, nuclear power can be generated for New Brunswickers at low cost.

Nuclear power is one of many ways we can reduce greenhouse gasses and provide greener energy to the province. The Rural Community of Campobello Island support NB Power's request to renew its operating license for the Point Lepreau Nuclear Generating Station.

Sincerely,

Harvey Matthews

Mayor

The Rural Community of Campobello Island
