**Letter of Support for the Near Surface Disposal Facility:**

Good day,

I am in full support of the proposed Near Surface Disposal Facility (NSDF) at the Chalk River Laboratories (CRL) site.

Working for CNL on the Port Hope Area Initiative, I am very familiar with cleaning up legacy waste and improving Canada's environment. We have an excellent safety culture and closely follow regulations, legislation and work plans every day.

I have absolute faith in the degree of research, technical proficiency, stakeholder engagement, transparency, and regulatory oversight for the NSDF Project. Lessons learned and expertise from the PHAI are/will be shared to improve these areas further, for a smooth project strategy and facilitation.

I am *very proud* to work for CNL – and trust our science. The NSDF is integral to CNL's continual advancement in sustainable energy technology, environmental remediation's, and to support life-saving medical breakthroughs.

Sincerely,

*Donna Snowden,*

Training Officer, Historic Waste Program
