**Re: OPG Darlington Waste Management Facility operating licence extension**

To Whom It May Concern:

On behalf of the membership and board of directors of the Greater Oshawa Chamber of Commerce, I'm writing to you today to express our unconditional support for OPG's application to extend its Darlington Waste Management Facility license to April 30<sup>th</sup> of 2033.

As we know from its record of public safety, the facility has operated safely and reliably to protect the public, employees, and the environment during the current licencing period. The Chamber and local business community as whole view OPG as an engaged and collaborative community partner, admired not only for their ongoing contributions to community-building, but also their exceptional record in conventional and radiological worker safety. This latter factor makes OPG exceptionally well positioned for the continued operation of the DWMF.

The Greater Oshawa Chamber of Commerce is proud of its 95-year track record of advocating and creating opportunity for the local business community. Many members of our executive team as well as our current CEO regularly engage in OPG project update meetings and tours of the Darlington facility. The Chamber has a credible view into the role and impact that OPG's ongoing success has in contributing to the broader success of our community and we support this application wholeheartedly and with pleasure.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Bocking", written over a light blue horizontal line.

Peter Bocking  
President of the Board of Directors,  
Greater Oshawa Chamber of Commerce
