Subject: Do not Greenwash the name of the Darlington Waste Management Facility

**To: The Canadian Nuclear Safety Commission
and Attn. President Velshi**

I am worried about the safety of my children and grandchildren, who all live near Darlington.

OPG should not be allowed to greenwash their role as a generator and manager of nuclear waste.

"Nuclear Sustainability Services" hides the true nature of this department.

Naming and acknowledging the fact that OPG generates nuclear waste and that the high level nuclear waste remains at the Darlington station is extremely important.

The CNSC must NOT let OPG greenwash this, disappearing the issues and making it harder for the public to find information they need about nuclear waste.
