---

June 3, 2020

Ref. 2020-H-04  
**Revision 4**

In its continued response to the COVID-19 pandemic, the Canadian Nuclear Safety Commission (CNSC) postponed the public hearing to consider an application from Canadian Nuclear Laboratories Limited (CNL) to amend its waste facility decommissioning licence for the Douglas Point Waste Facility (DPWF). **The public hearing, scheduled to be held on August 19 and 20, 2020, will now be held on November 25 and 26, 2020.**

The DPWF is the site of the former 200 MW Douglas Point power reactor and is located on the Bruce Power site in Tiverton, Ontario. The Douglas Point reactor was permanently shut down in 1984 and has been in Phase 2 of decommissioning – storage with surveillance – since 1988. CNL is now requesting a licence amendment to authorize Phase 3 of the DPWF decommissioning project, which would include the active decommissioning and demolition of remaining facilities.

**Date:** November 25–26, 2020  
**Place:** To be determined (depending on the directives concerning the COVID-19 pandemic, the hearing may be held in the community, in Ottawa or via electronic means)  
**Time:** As set by the agenda published prior to the hearing date

The public hearing will be webcast live on the CNSC website at [nuclearsafety.gc.ca](http://nuclearsafety.gc.ca).
